

ECLIPSE ART OF THE TABLE

And if there's an appetite for even more art on the table, we've introduced our limited edition Eclipse porcelain, adorned with art from the internally acclaimed artist Codriez. The set comes alive with playful drawings in vivid colours and was developed as a tribute to the joy of dining with family and friends. Light is a returning theme across Codriez' work. Each drawing begins its life with light (either a lamp or the sun) and from there he uses his collection of memories and connects them line by line, creating a collection of unmistakable colourful drawings.

Codriez draws, paints composes and plays music as a way of expression and to connect with people. He creates a joyful, unique universe, inhabited with colourful characters who reach out to all who see them. But more than that, Codriez' intention is to give people a reason to connect with each other, especially when dining together. His collection is designed to encourage people to talk about the unusual items on the table, to chat about each other's dreams, and occasionally to look in to each other's eyes. For Codriez you see, looking in to someone's eyes is 'seeing the light of that person' because light is connected with life, sincerity, openness and happiness. And things have come full circle where light is the beginning and the end of Codriez' artistic quest.
